

This is why we can go everywhere

#Recovery19

TAVITT COIN

TAVITT PAY

To use for purchasing air tickets and making payments for hotel reservations around the world provided by Skyscanner.

TAVITT Swap&DeFi

To earn income by depositing tavittcoin in Tavittswap.

TAVITT AIR DeFi

To purchase Ticket Tokens.

Tavittcoin is like miles available on global airlines. Current airline mileage programs are inconvenient because miles that you have earned are not compatible with all airlines. With Tavittcoin you can use for international air tickets. Also, by depositing in TAVITT DEX, you can earn more Tavittcoin with monthly interest income.

VISION

Travel x Blockchain = #Recovery19

While the world of After COVID-19 continues to be obscure, the way we enjoy traveling is changing its shape.

The word "travel" has become even more valuable,
and now the world enters an era where people seek innovative ways of appreciating travels.

Tavitt implements #Recovery19 together with OKChain.

The background of the image shows two hikers silhouetted against a vibrant sunset sky. One hiker is standing on a rocky peak, looking down, while the other is slightly behind and lower down the slope. The sky is filled with orange and yellow clouds, and the sun is low on the horizon, creating a strong backlight effect. The foreground shows some dark, silhouetted vegetation.

TAVITT LINK

TAVITT LINK is a community where each project participating in OKChain can send information to other projects on OKChain.

Tavitt will activate OKChain by creating a mechanism that allows each project to easily communicate with each other so that they can easily create partnerships and synergies.

- Manage and view each project participating in OKChain in a list
- You will be notified of release information and updates for each project
- You can create pair transactions on DEX with coins issued by each project
- Quantify and rank the transaction volume, activity, and contribution of each project

If the number exceeds a certain point, your account will be upgraded and OKT tokens will be distributed as a reward.

TAVITT AIR

TAVITT AIR is a cross-search type travel proposal service.

<https://tavitt.jp/>

You can also settle your ticket reservation with Tavittcoin.

Our web service allows you to discover new experiences while traveling and provides unprecedented discoveries.

At the root of this is the desire to "Enjoy life on a trip" and "Provide a life-changing trip."

Tavitt provides people around the world with a "life-changing experience" through travel.

TAVITT WiFi

Tavitt WiFi is a one-stop travel application that uses "eSIM" implemented in the Tavitt Ecosystem.

Travelers can connect to their destination's internet environment without having to change their SIM card.

There is no need to purchase and replace a SIM card at your travel destination.

When you open the application, please select the required amount of data and make a payment. And you can use the internet locally.

Holders over 1,500 TAVITT ... 50% off the regular price

Holders over 5,000 TAVITT ... Free with unlimited data

We aim to create an environment where you can use the Internet environment all over the world.

TEAM

CEO SOU KANAZAWA

Sou has an experience of operating an e-commerce site with over 5 million PV per month, which ranked in the top 100 in access within Japan.

Thoroughly sticking to the profit margin, he had achieved a gross profit margin of over 50% as well as a net profit of over 30%. He raised his company into a company with annual sales of over 10 million USD (1 billion JPY) and sold off his business in 2017.

In 2014, Sou founded Tavitt in Bangkok, Thailand. In the following year, he founded PAUL & MUSE Accounting firm Co., Ltd. in Bangkok, Thailand with a partner lawyer.

He has formed a professional team of international accounting and legal affairs providing various services including supporting Japanese companies.

After selling off the e-commerce business, Sou accelerated the business development of Tavitt (Thailand) Co., Ltd. and issued Tavittcoin with a market capitalization of over 100 million USD (10 billion JPY).

In August 2020, Tavitt participated in a hackathon specializing in blockchain application development sponsored by OKEx, which is one of the world's three major crypto exchanges and has the world's top number of users and transaction volume.

The Tavitt team had dedicated to the development of OKChain, an open-source decentralized public chain unique to OKEx, and won a prize.

After that, Tavitt and OKEx have officially signed a partnership.

By integrating blockchain technology with the travel business, Tavitt is now developing #Recovery19, a new travel service demanded in the world of after COVID-19, together with OKEx.

Tavitt primarily focuses on ensuring transparency on the blockchain as well as fair trading at all times, and providing new experiences through traveling.
